

It has been an amazing journey and learning experience helping build and create a better and brighter future for the members of St. Croix. As a leader, I do believe it is our duty to create opportunities for our members to be successful in any facet they feel driven to do so. Whether that be educational, employment, rehabilitation, or getting back to tradition and cultural beliefs and values is up to each individual. Providing opportunity for people to seek success on their own develops independence and strengthens us as a tribe to be independent and operate more efficiently. There have been many positive steps forward, but there is still many issues that need to be addressed to continue our march forward. I am a firm believer that actions speak louder than words and I do feel the progress the tribe has experienced as a whole speaks for itself. I would appreciate your support to continue fighting for a better and brighter future for the St. Croix people by voting on June 10th

Miigwetch,

Conrad St. John, Sand lake Representative
